Question 1

8 Will the draft Waste Management Plan for England – when combined with the location specific guidance in waste planning policy - meet the requirements of Schedule 1 of the Waste (England and Wales) Regulations 2011?

Yes or No:
Yes

If you answered No to this question please give your reason:

NLWA agrees with this statement and welcomes the revision of the plan in line with the 6-year review as specified in the Waste Regulations 2011. With the ambitions of the Resource and Waste Strategy and associated policy developments, NLWA suggests the Waste Management Plan for England should be reviewed before the next 6-year cycle. A timescale of 2-3 years would seem reasonable to account for the implementation of the deposit return scheme, consistent collections, extended producer responsibility and the plastics tax.

Question 2

9 Do you agree with the conclusions of the Environmental Report?

Yes or No:

Yes

10 Do you have evidence to support your view?

Yes or No:

No

If you answered Yes to this question please provide the evidence that supports your view and state which part or parts of the environmental report it relates to. Please include links to published evidence where relevant.:

Question 3

11 Do you agree or disagree with the following statement: 'There will be no additional burdens for businesses, consumers and local authorities arising directly from the adoption of the Plan'

Agree or Disagree:

Agree

If you disagree with the statement, please provide appropriate evidence to support your view.:

NLWA agrees with this statement. However, we would reiterate the benefit of reviewing this plan before the next 6-year cycle. With the significant changes of waste management strategy and policy in the coming months and years, it would provide support and a direction of travel if these were included in the next Waste Management Plan for England.
